

SERVER ENVIRONMENT MONITOR

Compact unit for monitoring and manage server environment

SEM 1010

- ❖ Temperature
- ❖ Voltage
- ❖ Intrusion
- ❖ Dry contacts
- ❖ Video surveillance
- ❖ Audio surveillance
- ❖ History graphs
- ❖ Raw data logging & preview

Ensuring secure and healthy environment suitable for demanding server operation is becoming increasingly important, which is why SHONESY develop a variety of SEM applications. SEM 1010 is compact sensor extender box. It is intended to be connected on pc computer with USB port for reading and logging sensor data. SEM 1010 comes with Server service and client manager that provide

data visualization and remote control. Support two fast sampling sensor or multiplexed low speed sensors like temperature. In addition SEM 3010 can be used to remotely control number of external devices. Power supply need to be provided for support sensors. Connect only sensor that intent to be used with SEM 1010 to damage of sensors or device.

Technical data	
Rated voltage	200-240V
Rated frequency	50/60 Hz
Interfaces	USB
Operating ambient temperature	0 to 45°C
Relative humidity	5% to 90% without condensation
Dimensions W x D x H	160x160x65
Weight	0,6 kg
