

SERVER ENVIRONMENT MONITOR

Rackable sensor extender box

SEM 2010

- ❖ Temperature
- ❖ Voltage
- ❖ Intrusion
- ❖ Dry contacts
- ❖ Video surveillance
- ❖ Audio surveillance
- ❖ History graphs
- ❖ Raw data logging & preview

Ensuring secure and healthy environment suitable for demanding server operation is becoming increasingly important, which is why SHONESY develop a variety of SEM applications. SEM 2010 is compact sensor extender box. It is intended to be connected on pc computer with USB port for reading and logging sensor data. SEM 2010 comes with Server service and client manager that provide

data visualization and remote control. Support two fast sampling sensor or multiplexed low speed sensors like temperature. In addition SEM 2010 can be used to remotely control number of external devices. Power supply need to be provided for support sensors. Connect only sensor that intent to be used with SEM 2010 to damage of sensors or device.

Technical data	
Rated voltage	200-240V
Rated frequency	50/60 Hz
Interfaces	USB
Operating ambient temperature	0 to 45°C
Relative humidity	5% to 90% without condensation
Dimensions W x D x H	430x160x42
Weight	1 kg
